

ESET NOD32 Antivirus 4 Business Edition

The latest generation of ESET's Internet security for businesses

ESET NOD32® provides proactive protection against increasingly sophisticated and targeted cyber threats. Known for being fast and unobtrusive, it allows you to focus on your business, not your antivirus. The program employs a powerful combination of advanced heuristic technologies and automatic updates of malware signature databases, detecting and eradicating a high amount of unknown threats. Its proactive capabilities protect your company's critical infrastructure even against never before seen malicious code. But don't take our word for it – ESET has consistently received the highest marks in proactive protection tests conducted by *av-comparatives.org*, and received the highest ranking on *Forbes* list of best-in-class antivirus products.

KEY FEATURES

Smart detection	ESET NOD32 Antivirus uses proactive detection technology to identify malware, providing your system with around the clock protection. Proactive detection relies on advanced heuristics as well as generic and genetic algorithms to detect new malware and new mutations of known malware.
Extremely light system footprint	ESET NOD32 Antivirus is so light your users will not even notice it's running.
Advanced archive scanning	Threats don't always enter where you expect. ESET NOD32 Antivirus can scan into layers of compressed files to ferret out malicious software. Users can control search depth, file size, archive size and timeout of archive scans.
Encrypted communication control	Scanning SSL-encrypted HTTP and POP3 protocols defeats even threats that hide from plain sight.
Enhanced portable computer support	Enhanced settings for portable computers allow tasks to be postponed when the computer is running on battery power.
ESET SysRescue	Creates rescue CDs, DVDs or USB drives for cleaning unstable, infected systems.
ESET Sysinspector™ integration	Administrators will love our advanced diagnostic tool for taking "deep-dive" snapshots of systems. Files and processes are color coded in scan logs to make it easy for IT administrators to identify potential threats in the system.
Uninstall password protection	Password protection prevents ESET NOD32 Antivirus from being uninstalled by unauthorized employees or visitors.
ESET self defense and HIPS	ESET NOD32 Antivirus has built-in technology to prevent malicious software from corrupting or disabling it. Unauthorized attempts to modify your OS or applications are actively blocked through a combination of advanced behavioral analysis and network filtering that monitor your system processes, files and registry keys.
Removable media access control	Protects against infections from USB drives, floppies, CDs and DVDs.
Improved cleaning	Cleaning of certain difficult to remove infections has been significantly improved.
Support for Cisco Network Admission control	Regulatory compliance is simplified with native support for Cisco NAC.
Mirror updating	Mirror servers make it easy to manage distribution of signature database updates to all ESET products within the network, saving you valuable time and bandwidth.

SYSTEM REQUIREMENTS

Processors Supported	Intel or AMD x86 / x64
Operating Systems	Microsoft Windows 2000, Microsoft Windows XP, Microsoft Windows Vista, Microsoft Windows Server 2000, Microsoft Windows Server 2003, Microsoft Windows Server 2008
Memory	44 MB
Disk Space	28 MB (download) / 35 MB (installation)
