

ESET Smart Security 4 Business Edition

Maintain the highest level of security across all of your networks.

ESET Smart Security® combines an advanced management console and award-winning ThreatSense® engine with firewall and antispam modules that stop plain and SSL-encrypted network- and email-borne threats. Automatic, frequent signature updates and proactive heuristic technologies let your users focus on business while you remain confident your company's infrastructure is protected. Honored with a "★★★★★" rating by *SC Magazine* (January 2009), and ranked highest on *Forbes* list of best-in-class antivirus products, ESET Smart Security has the proven power to protect your company's valuable data *and* reputation.

KEY FEATURES

Fully integrated protection	ESET Smart Security integrates our powerful antivirus engine with state-of-the-art personal firewall and antispam modules — offering comprehensive protection to the workstations across your network.
Extremely light system footprint	ESET Smart Security is so light your users will not even notice it running.
Advanced archive scanning	Threats don't always enter where you expect. ESET Smart Security can scan into layers of compressed files to ferret out malicious software. Users can control search depth, file size, archive size and timeout of archive scans.
Encrypted communication control	Scanning SSL-encrypted HTTP and POP3 protocols defeats even threats that hide from plain sight.
Enhanced portable computer support	Enhanced settings for portable computers allows tasks to be postponed when the computer is running on battery power.
ESET SysRescue	Creates rescue CDs, DVDs or USB drives for cleaning unstable, infected systems.
ESET Sysinspector™ integration	Administrators will love our advanced diagnostic tool for taking "deep-dive" snapshots of systems. Files and processes are color coded in scan logs to make it easy for IT admins to identify potential threats in the system.
Uninstall password protection	Password protection that prevents ESET Smart Security from being uninstalled by unauthorized employees or visitors.
Extended email client support	Native support for Microsoft Outlook, Microsoft Outlook Express, Mozilla Thunderbird, Windows Live Mail and Windows Mail makes messaging security simple. POP3 and IMAP protocols support delivers the same protection to other email clients.
ESET self defense and HIPS	ESET Smart Security has built-in technology to prevent malicious software from corrupting or disabling it. Unauthorized attempts to modify your OS or applications are actively blocked through a combination of advanced behavioral analysis and network filtering that monitor your system processes, files and registry keys.
Removable media access control	Protects against infections from USB drives, floppies, CDs and DVDs.
Improved cleaning	Cleaning of certain difficult to remove infections has been significantly improved.
Support for Cisco Network Admission control	Regulatory compliance is simplified with native support for Cisco NAC.
Mirror updating	Mirror servers make it easy to manage distribution of signature database updates to all ESET products within the network, saving you valuable time and bandwidth.

SYSTEM REQUIREMENTS

Processors Supported	Intel or AMD x86 / x64
Operating Systems	Microsoft Windows 2000, Microsoft Windows XP, Microsoft Windows Vista, Microsoft Windows Server 2000, Microsoft Windows Server 2003, Microsoft Windows Server 2008
Memory	48 MB
Disk space	32 MB (download) / 46 MB (installation)
